

<p>1. Provide a short explanation of your idea here:</p> <p>The anthropometry of heads of different groups of population (for example children) and races (Chinese or African people, for example) is different not only in sizes but in shapes. A possible project is to work in the determination of head morph types of different groups with the aim of obtaining the satisfaction of helmets users.</p> <p>.....</p>	
<p>2. Why is this a good idea? Provide 3 arguments.</p> <p>Helmet market is huge</p> <p>No good adaptation of helmets – no use</p> <p>Helmets are not use only for sports uses (bigger market)</p>	<p>3. What remains to be done? And when should they be done (tomorrow/next week/next month/next year)</p>
<p>4. Are there ideas that combine well with your idea? Please mention them here.</p>	<p>5. Whom do you need to make your project successful and what role should they fulfill (designer, researcher, company, ...)</p> <p>It is necessary to carry out a huge anthropometric study</p> <p>The technology exists</p>
<p>6. Do you support this idea? Please fill out your name and your possible role!</p> <p>Your name Johan Molenbroek possible role Anthropometry specialist.</p> <p>Your name Asuncion Martinez possible role children specialist</p> <p>Your name Mercedes Sanchis possible role RTD</p>
